MANCHESTER

INTERNATIONAL EMPLOYMENT HUB

With X1 The Landmark sat adjacent to Manchester's central business districts of Spinningfields and Deansgate, residents are located on the gateway to one of the most dynamic cities in Europe.

Manchester, having been recently voted the UK's most liveable city by the Economist Intelligence Unit, was praised for its infrastructure, stability and culture, which goes some way to explaining why the city was ranked an impressive 43rd in the world (10 places above London). The UK's unofficial 'second city' of Manchester is leaps and bounds ahead of other UK and European cities, offering the best in shops, bars, restaurants, tourist attractions and recreation, like sports, theatre and music.

INVEST IN THE NORTHERN POWERHOUSE

The North of England is rapidly becoming the place to live, work and invest. As London grows ever-more unaffordable and tenants are flocking out of the city in their thousands, the North is rising as a tangible alternative to London's overheated property market.

Ever since the former Chancellor of the Exchequer George Osborne announced plans in 2014 to relaunch the Northern regions of England as the 'Northern Powerhouse', the UK hasn't looked back. This initiative has become far more than just an exercise in rebalancing the increasingly London-centric economy more towards the regions. Instead it has become a mantra of growth, devolved power and innovation for the North.

Schemes like HS2, the brand new high-speed rail network set to connect most major Northern cities to London in

less than half the time it currently takes, will only empower the North further. Devolution has been progressing across the most prominent Northern regions and regeneration is happening at pace.
